

Key Features:

INDEPENDENT PANELS

- Independent panels create controlled air flow
- Manoeuvre the doors freely with just one hand
- Recover space lost with traditional folding door systems

HIDDEN HINGES

- No unsightly hinges that rust and tarnish
- Clean minimal design

INTERLOCKING PANELS

- Certified systems giving optimal protection from wind and rain
- Secure accredited (Pas24) Interlocking panels
- No need for multiple locks

COLOUR OPTIONS

- Over 200 RAL colours
- Solid Oak Internal finish

DESIGNED & MANUFACTURED IN THE UK

- Your doors are bespoke built to fit your opening
- All doors are manufactured in the UK

1. CONCEALED HINGES:

All hinges/pivot points are concealed for a more pleasing aesthetics and architectural sight-lines.

2. INDEPENDENT SLIDING PANELS:

No hinges, no binding, no sagging. Panoramic door panels glide with a smooth and easy functionality along the bottom track.

3. INTERLOCKING PANEL SYSTEM:

Interlocking "tongue and groove" panels provide for security and performance against the elements.....without the need for additional locking mechanisms.

4. NARROW FRAME:

Our narrow 3" (inside to outside) frame give you plenty of room to add a screen or blinds.

5. SLIDE-N-PIVOT OPERATION:

Utilizing our innovative, patented Magnaline® hardware system, the door panels slide-n-pivot independently for easier operation.

6. UP-STAND OR FLUSH TRACK:

Choose between the 3/4 up-stand track for maximum weather protection or the flush* track for a low profile appearance.

Note: *Flush track does not protect against water penetration

7. BOTTOM TRACK SUPPORTED:

Rather than hanging from the header, our panels ride on the bottom track reducing the cost of engineering and special structural support.

8. IN-SWING OR OUT-SWING:

Choose between in-swing or out-swing door operation.

*Note: Nest-In and Retro Outer Frame is available in out-swing only.

HOW THE PANORAMIC DOOR SYSTEM OPERATES

STEP 1: OPEN ACCESS DOOR

Turn handle to open the access door.

STEP 2: SLIDE PANEL AND PIVOT TO OPEN

Slide the next panel over toward the open access door. When in position, the sliding panel will click into place and pivot open.

STEP 3: CONTINUE WITH REMAINING PANELS

Continue the same process with the remaining panels.

MULTI-POINT LOCKING

All of our Panoramic Door Systems come standard with a multi-point locking system on each access door.

Unlimited Colours: Over 200 paint colours and custom colour matching for aluminium.

Easy Open Panels: Individual panels are easy to move no matter how large the door system is.

Weather-ability: Designed to withstand wind and rain, meeting the exacting standards of BS6375.

Thermal Protection: All Panoramic Doors are designed to maximise thermal protection.

Real Wood Cladding: Choose from a variety of woods for a more luxurious feel.

BI-FOLD DOOR or PANORAMIC DOOR?

The Panoramic Folding Patio Door is the alternative to the dated bi-fold and accordion door system. This type of door is fast becoming the most influential aspect of modern home and restaurant design.

Rather than have a series of panels connected to each other with hinges, we have designed a door where the panels move independently of each other. More freedom, easier operation and total control of the opening.

THE PANORAMIC DOOR TECHNICAL GUIDE:

Mechanically Fastened Corners

Mechanically fastened corners insure a strong door that is able to withstand years of operation. The vinyl core is mechanically fastened via the aluminium inserts. After the core has been assembled we add aluminium cladding so you can have your door in any colour you desire.

Block Frame Design

The Thermoalad Door frame is a four part block frame. Because all the weight of the door is on the bottom track, this system is easier to install than other doors of this type.

Aluminium Re-Enforced Vinyl Core

The Panoramic Thermoalad Door combines the thermal benefits of vinyl with the beauty of painted aluminium.

Choice of Hardware

Security at every point

The swing door panel(s) come equipped with a deadbolt and two or more hooks that lock into the neighboring panels. We use the Ultion 3 Star lock cylinder which comes with a £1000 security guarantee.

Choice of two real wood options

Nothing feels or looks as luxurious as real wood.

Choose from our selection of stain-grade woods for your interior.

The Panoramic Door utilises cutting edge design - Industry leading - Next Generation Technology.
