Beauty and elegance

As the saying goes “Home is where the heart is.”

We specialise in making homes like yours more secure and more beautiful. We achieve this by using expert installers to fit British-made PVC-U windows and doors of an exceptional standard. Thanks to our expertise, replacing windows and doors means an upgrade for your home. Our products put the elegance into energy efficiency, the style into security and a lifetime of enjoyment into high performance.

So whether you're looking for more of a wow factor, more security or to add more value to your home, we'll help you achieve your aims. The products we install are high quality, thoroughly tested and trusted by home-owners across the UK.

Take a look to find out how we can add warmth, style and security to your home.

“Homes are currently responsible for around 28% of UK CO₂ emissions, contributing to the impact of climate change.”

The Glass and Glazing Federation

Energy efficiency

Exceptional performance - great news for the planet and for your pocket.

Turn your house into an energy efficient and cost effective home, by installing the best in PVC-U windows and doors. We can help you to reduce your carbon footprint and your energy bills.

Planet-friendly features

Our products are packed full of clever design features like plastic thermal reinforcements made from 100% recycled material to keep in more heat, to advanced glass that can capture free heat from the sun through solar gain. Our products are also designed so that they can be collected and recycled back into new PVC-U products.

Turning things around

Rising energy costs and extremes in weather: we're helping to address these important issues in your home. Our windows include non-visible recycled PVC-U window content, such as the reinforcement bars that are fitted inside the opening frame profiles to provide extra strength and thermal efficiency. Unlike other options out there, our PVC-U windows can be recycled up to 10 times with a total lifespan of 400 years!

Security

You can't put a price on security.

You could count the cost of not choosing the most secure replacement windows and doors.

Our windows and doors come with the latest high-performance multi-point locking technology, meaning you can rest assured that you're keeping your home and family well protected. We're committed to finding the right security solution for your needs.

We aim to give you peace of mind.

Quality

Making a change to your home? No doubt you are seeking the highest standard of quality for your new PVC-U windows and doors.

By selecting windows and doors manufactured from PVC-U rather than other alternative framing materials, you can be confident that these products will never flake, peel, rust or rot, they will provide beautiful good looks and be maintenance-free for many years to come.

*40mm triple glazed option is also available.

Options

The choices for replacement windows and doors these days are endless.

Add more character to your home.

Imagine your home with windows that are as long-lasting as they are beautiful - and as elegant as they are energy efficient. By replacing your existing windows with our PVC-U windows, you'll make your home quieter, safer and more secure.

But that's just the beginning. When you're at home you'll see the difference with new windows that are the perfect colour match for your house, whether they are in White, woodgrain, Cream, Grey, Rustic Cherry or one of our other Artisan colour options. You'll see the difference in your finances too - our windows come with a Green Guide A rating, so they'll help to shrink your energy bills. Throughout their long lifespan, your windows will remain as virtually maintenance-free, efficient and attractive as they were on day one.

- Quieter, safer and more secure
- Perfect match for your home
- Energy efficiency to reduce energy bills
- Virtually maintenance free
- Adding value to your home

From top opening to side opening designs, there are practical choices to suit the look and use of every room.

Bay windows

Add more light and space to your home.

- Added space and classic style
- Thermally efficient
- Secure locking hardware
- A range of glazing options
- White, woodgrain or Artisan colours

Wouldn't you love some added space? Now you can have it - simply by replacing your existing windows with our bay windows.

Picture what that extra space would do for your house. A better view, whether you're outside or inside. Outside, you'll enjoy the new updated look. Inside, you'll notice that the room feels more spacious. You can choose from White, woodgrain or Artisan coloured windows. Whichever option you select, being PVC-U, your windows won't rot or lose their looks for the whole of their long life. And added thermal efficiency means lower energy bills for good.

A stylish upgrade to provide more space, more light and enhanced security.

Protect your family with our securely locking windows.

Bow windows

Bring more of the outside - in.

A brilliant way to add extra space and light to your existing rooms.

- Create a new aesthetic look
- Increased light and space
- Peace and quiet with double glazing
- Advanced locking features

Bring more of the outside in with our stylish replacement PVC-U bow windows. Being built out from your existing walls, our bow windows extend the space - adding a whole new dimension to your house. Not only do they look good, they are also a straightforward installation option to create replacement windows with a difference.

Bring much more to your home. More style, with our choice of White, woodgrain or 13 beautiful Artisan colours. More peace of mind, with our advanced locking system - and more peace and quiet, thanks to the sound-reducing advantages of double glazing.

Why just replace when you can enjoy more light and space?

Colour options

To create added impact with your replacement windows and doors, just add a splash of colour!

Woodgrains

In addition to White, we offer three woodgrain shades with our windows and doors - elegant Mahogany, warm Golden Oak and mellow Cherrywood.

Expressing yourself with these colours isn't limited to just one selection. For example you can specify White on the inside and your woodgrain colour of choice on the outside. So your PVC-U windows and doors will look great from every angle.

All of our colour options deliver the practical advantages of PVC-U windows - energy efficiency, security and low maintenance.

Golden Oak

Mahogany

Artisan woodgrain collection

Want to live life in full colour? Now you can do exactly that, with a wider choice of colours for your replacement windows and doors.

13 eye-catching Artisan shades are available, from striking colours like Green, Grey and Cream, to our sumptuous selection of woodgrains such as Rustic Cherry, Irish Oak and AnTeak. You decide. Our woodgrain finishes are so fine that it's almost impossible to distinguish them from the real thing!

Why not specify dual colour if you want to enjoy the brightness of white on the inside frame faces and a bold colour finish on the outside? Alternatively for added impact, bring the colour indoors by opting for your chosen colour on both sides.

Our Artisan range really lets you make a design statement. Coupled with all the long-lasting quality and exceptional security of PVC-U windows and doors, it's proof that quality and beauty belong together.
